BATTERY INSTALLATION:

1. Unscrew lamp head, holding it pointing upward.
2. Remove used battery and replace with fresh one per polarity signs.
3. Screw lamp head down. DO NOT ACTIVATE IT YET.

ON/OFF:

When the light is off, turn the lamp head counter-clockwise until it activates. DO NOT OVERTIGHTEN. To turn the light off, back off the lamp head clockwise 90 degrees or less than one full turn. For underwater use, backing off more than one full turn will probably cause flood. Continue to back off for approximately one full turn to eliminate the possibility of the light activating accidentally in storage.

CAUTION:

1. Never attempt to repair or modify the light yourself.
2. Please check the light regularly for sharp edges, scratches or damages to the surface or O-ring, as this can cause the light to flood under pressure. PLEASE LUBRICATE THE THREADS, O-RING GROOVE WITH SILICONE GREASE TIMELY.
3. Please rinse the product surface thoroughly after each use. Allow sufficient time to dry both inside and outside before storage.
4. Please remove the battery for transport or storage. Do not lay the battery in a fire or expose it to direct heat. Do not wet or hit the battery. Please charge the battery after each use, or once every three months, to avoid over-discharging.
5. Never leave the light unattended when it is on.
6. Please keep the device out of the reach of children or pets.
7. Never shine the light to human or pet's eye.
